PROFESSIONAL SUMMARY

UI/UX Designer and Software Engineering undergraduate with hands-on experience in designing user-centered interfaces using Figma. Skilled in wireframing, prototyping, and creating intuitive digital experiences. Passionate about accessibility, usability, and building impactful products through thoughtful design. Possesses strong teamwork, communication, leadership, and problem-solving skills with the ability to collaborate effectively in fast-paced environments and contribute positively to team success.

PROJECTS

BloomCraft – Custom Bouquet Builder Website

2026

UI/UX Project using Figma

[Figma Link](#)

- Conceptualized and developed a custom bouquet builder platform based on the observation that most flower websites only provide pre-made bouquets with limited personalization options.
- Created a user-centered experience allowing customers to select flowers, customize bouquet details, and personalize orders according to their preferences.
- Built modern UI screens, wireframes, and interactive prototypes in Figma with a focus on usability, accessibility, and responsive layouts.

Aura – Stress Relief & Wellness Platform

2025

UI/UX Project using Figma

[Figma Link](#)

- Conducted research using AI platforms and design references to better understand user problems related to stress management and wellness applications.
- Collaborated with the team to identify suitable features and user flows focused on meditation, mood tracking, and relaxation experiences.
- Created selected high-fidelity mobile UI screens and prototypes in Figma with calming visual elements, accessibility considerations, and intuitive navigation.

Tripzy – Smart Ride Booking Mobile App

2025

UI/UX Project using Figma

[Figma Link](#)

- Contributed to a smart ride-booking mobile application inspired by transportation challenges faced by elderly and differently-abled users during daily travel.
- Introduced accessibility-focused features and eco-friendly ride options to improve inclusivity and promote environmentally conscious transportation.
- Developed clean and user-friendly mobile interfaces, interactive prototypes, and booking flows in Figma with a focus on simplicity, usability, and seamless navigation.

EDUCATION

Software Engineering Undergraduate

2024 – Present

University of Kelaniya

GPA: 3.62

SKILLS

UI/UX Design: Figma, Wireframing, Prototyping, User Flows, User Research, Interaction Design, Usability Testing

Visual Design: Visual Hierarchy, Color Theory, Accessibility, Design Systems, Component-Based Design, Responsive Design

Frontend: HTML, CSS, JavaScript, React

Soft Skills: Communication, Collaboration, Problem Solving, Attention to Detail, Adaptability
